Packaging, Storage & Obsolescence

Packed as 12 individually wrapped spectacles in a box and 25 boxes per carton (300 spectacles per carton). Store in a cool dry place.

Inspection Frequency and Details

Prior to use the spectacles should be free of any potential contaminants that can affect its intended performance.

The spectacles should be inspected by the user at the end of every use and again prior to each use. Cracked eyewear must be removed from service as they will reduce eye protection and obstruct vision.

Cleaning & Maintenance

Designed as re-usable protective eyewear. After use clean with a mild cleaning liquid, carefully rinse off all traces of the cleaning liquid and dry with a soft cloth and gently wipe with a soft spectacle cleaning material. Do not clean on clothing nor use abrasive cleaners.

Shelf Life

The duration of these spectacles cannot be determined by a timeline as they are intended for normal day to day use. Ensure that proper care and maintenance (inspection and cleaning) is adhered to. Under normal circumstances the spectacle should offer adequate protection for 3 years.

Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice. Safety eyewear should be disposed of considering the hazardous substances they were used for or could be contaminated with. Please consider recycling.

Product details

The quality is light without oppression

The use of PC materials made of protective glasses, lightweight and more comfortable material, long time to wear will not be tired.

Strong impact Resistance

PC lenses can effectively prevent iron filings, ash sand, gravel and other objects due to splash and the danger of bad eye.
